COURSE OVERVIEW

The objective of the course is to train officials from financial supervisory agencies to understand the 12 key attributes established by the Financial Stability Board, in order to ensure that the failures of systemically important financial institutions do not threaten financial stability or taxpayers.

PROGRAM

- Initial Considerations
- An example of Ineffective Resolution
- Background and Motivation for the Key Attributes
- The Key Attributes for Effective Resolution

PARTICIPANT PROFILE

No prior knowledge of banking resolution is required, although experience in financial risk management and banking supervision is recommended.
